FOR IMMEDIATE RELEASE

ST. STANISLAUS SCHOOL NAMED A 2023 ASCEND MATH® GOLD MEDAL RECIPIENT

Shreveport, LA April 20, 2023 Ascend Education announced today that Zayra Salinas in East Chicago, IN will receive a 2023 Gold Medal.

The Gold Medal Award was established in 2010 to honor the schools or districts that best demonstrate a dedication to ensuring that all students become successful at math. The strategies employed by this year's Gold Medal honorees made use of Ascend Math, an online individualized math instructional resource, to address unfinished learning, accelerate math learning and outpace growth targets.

In her submission for St. Stanislaus School Zarya Salinas wrote, Ascend allows all teachers to support each student as an individual regardless of level in math. Students can clearly make connections between classroom instruction and grade level standards with their learning and achievements with the Ascend program.

“Congratulations to St. Stanislaus School students for the perseverance and hard work that led to their exceptional results,” said Kevin Briley, CEO of Ascend Education. “We are extremely proud of the important job the educators at St. Stanislaus School are doing to help their students succeed in math, gain confidence, and positively advance in life.” “This year we have heard countless ways in which schools have addressed unfinished learning using Ascend Math. These educators reported grade level growth, improved test scores, and many other positive touch points and outcomes. We are so thankful for our Gold Medal schools, what they are doing to support their students and the ways they have shared their models to help other educators accelerate math learning.”

St. Stanislaus School will be featured on the Ascend Math website throughout the next year and receive a plaque commemorating their success. The complete honor roll can be viewed at <https://www.ascendmath.com/ascend-math-gold-medal-2023/>

About Ascend Math®

Ascend Math is personalized online math instruction that provides each student with a unique study path through skill gaps at each level. Individual study plans are prescriptive, adaptive, and automatically assigned. In addition, Ascend Math provides all the interactive instruction each student needs. Students

using Ascend fill skill gaps quickly and often improve one to two grade levels the first few months. Real time data makes progress monitoring easy and gives teachers a quick snapshot on what needs to happen next.

Ascend Math is written to rigorous state standards. Instruction is delivered in a logical math sequence and students can progress at their own pace and track their own progress and success. Ascend Math® is currently used by hundreds of schools and districts serving more than one hundred thousand students throughout the U.S. and Canada. Visit www.ascendmath.com
